

Stinking sewage water poured,  
recklessly into rivers and seas.  
Radioactive waste lashed,  
thoughtlessly across the oceans.  
Mountains of litter poured,  
into our water ways.  
HELP! You're destroying our planet .

Dolphins suffocating,  
in plastic every day.  
Octopus's tentacles tangled,  
in nets.  
Ducklings necks getting choked,  
By plastic packaging.  
HELP! You are killing our animals.

Glass bottles smashed,  
and lashed on our beaches.  
Plastic bags floating,  
like jelly fish in disguise.  
Oil spilled carelessly,  
covering our hopeless animals.  
HELP! You are torturing the creatures.
