

13 CLIMATE ACTION

14 LIFE BELOW WATER

HELP

Goals 13 and 14

Revoltng Sewerage tipped,
thoughtlessly into oceans and seas.

Radioactive waste left,
floating in the seas.

Hills of litter poured,
recklessly into holes underground.

Help! you're poisoning the Planet

Plastic straws stuck,
up animals noses

Face masks wrapped
tightly around ducks beaks

Cigarette butts Sticking

Starving stomachs of chicks

Help! you are rocking the world

Plastic can ties Strangling
Swans necks

Carrier bags blowing
on the roads and streets

Oil slicks leaking
from boats out into sea

Help you're torturing the planet animals
